Expert Curated content selection by the independent Content Selection & Advisory Board (CSAB)

Expert Curation

There are
100,750*
active
scholarly
titles

Of which
43,947*
are peer-
reviewed

Scopus
indexes
22,800+

Curated
content

- › Titles on Scopus are rigorously reviewed and selected by an independent board of subject matter experts to include 52% of the world's peer-reviewed scholarly literature.

* Source: Ulrich's Web Global Serials Directory, August 1, 2017

- The **CSAB** is an independent board of subject experts from all over the world.
- Comprised of 17 Subject Chairs.
- Board members are chosen for their expertise in specific subject areas; many have (journal) Editor experience.

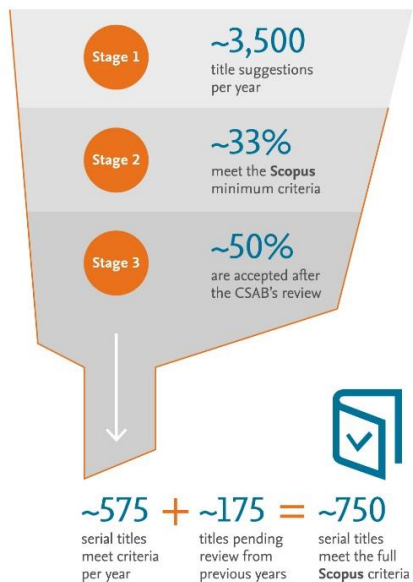

Maintaining high-quality: 15-20% acceptance rate

Strict Quality & Ethics Selection Criteria*

The **Scopus** title selection criteria – our set of clear and transparent guidelines, in combination with reviews by our independent Content Selection & Advisory Board – ensure the quality of titles indexed meets consistently high standards.

* 2016 as sample year

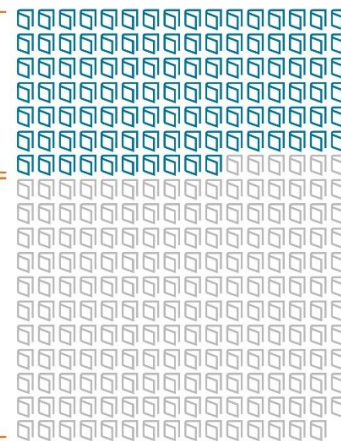

Rigorous Re-evaluation Process

In the latest reevaluation exercise, **303** under-performing titles were re-evaluated by the Content Selection & Advisory Board

106 (35%) continue to meet **Scopus** criteria and coverage will continue

197 (65%) no longer meet **Scopus** selection criteria and coverage going forward will be discontinued

Transparent Scopus selection criteria for serial content

All titles should meet all minimum criteria in order to be considered for Scopus review:

Peer-review

English
abstracts

Regular
publication

Roman script
references

Pub. ethics
statement

Eligible titles are reviewed by the Content Selection & Advisory Board according to a combination of 14 quantitative and qualitative selection criteria:

Journal Policy

- Convincing editorial concept/policy
- Type of peer-review
- Diversity geographic distribution of editors
- Diversity geographic distribution of authors

Quality of Content

- Academic contribution to the field
- Clarity of abstracts
- Quality and conformity with stated aims & scope
- Readability of articles

Journal Standing

- Citedness of journal articles in Scopus
- Editor standing

Regularity

- No delay in publication schedule

Online Availability

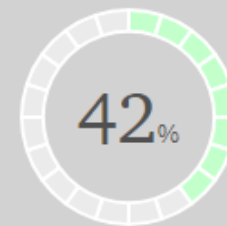

- Content available online
- English-language journal home page
- Quality of home page

Are you...?

www.readyforscopus.com

Pre-evaluation of Scopus submission

Readiness

12. Geographical diversity:

12.1 of Editors – is according to claimed journal's aim and scope

Yes No

12.2 of Authors – is according to claimed journal's aim and scope

Yes No

Comment

The diversity of authors' and editors' countries is considered in the evaluation. It's important that affiliation and country for journal's authors should be presented in English. Check geographical diversity of authors in other journals, similar to your journal by topic but already indexed in Scopus. Authors' geographical diversity should correspond with claimed aims and scope. It's applicable for editorial board diversity as well. Lack of affiliations and countries of origin of the editors makes it more difficult for the Scopus team to evaluate the editorial board. Please include this information in the list of editors. Check geographical diversity of editors in other journals, similar to your topic but already indexed in Scopus

12. Географическое разнообразие:

12.1 членов редколлегии соответствует заявленным целям журнала

Да Нет

12.2 авторов соответствует заявленным целям журнала

Да Нет

Комментарий

При рассмотрении журнала для включения в Scopus учитывается разнообразие стран, представленных авторами и редколлегией журнала. Информация об аффилиции и стране автора должна быть представлена в журнале на английском языке. Проверьте, каков международный состав авторов журналов, схожих по тематике с вашим, но уже индексируемых в Scopus. Географическое разнообразие авторов должно соответствовать заявленным целям и задачам журнала. Это также касается и редколлегии журнала. Отсутствие аффилиции и страны для членов редколлегии весьма затрудняет оценку редакционной коллегии экспертами Scopus. Поэтому эта информация должна быть представлена в списке редколлегии на английском языке. Проверьте, каков международный состав редколлегий журналов, схожих по тематике с вашим, но уже индексируемых в Scopus

Workflow cont.

The screenshots illustrate the workflow for managing submissions in the bepress Journal of Earth Science system. The main focus is on the 'Contents of vol1/iss2' page, which allows users to arrange the contents of an issue using various tools. A table lists the articles in the issue, with columns for Order, MS#, Author, Title, and a Remove checkbox. The article 'global perspectives' by Sample Author is highlighted in the table. A blue callout box points to this article with the text 'publish in volumes/issues or article by article'. The interface also includes a 'View/close issue' button and a 'Submit changes' button. Below the table, there is a section for adding submissions to the issue, with a list of authors and an 'Add' button.

Order	MS#	Author	Title	Remove
1	1038	Sample Author	The Everglades deterioration as a result of climate change	<input type="checkbox"/>
2	1048	Author ZeroOne	Test Title	<input type="checkbox"/>
3	1042	Annie Teng	Bush Administration attacks the Endangered Species Act	<input type="checkbox"/>
4	1051	Tim Tamminga	Title of an article	<input type="checkbox"/>
5	1041	Author Teng	Test Sample #4 Lewis	<input type="checkbox"/>
6	1046	Author Teng	Sample article for BYU	<input type="checkbox"/>
7	1049	Dave Stout	Manhattanville Test	<input type="checkbox"/>
8	1032	Annie Teng	Sample article about education	<input type="checkbox"/>
9	1054	Sample Author	global court cases	<input type="checkbox"/>
10	1055	Sample Author	global thoughts	<input type="checkbox"/>
11	1053	Sample Author	global perspectives	<input type="checkbox"/>

publish in volumes/issues or article by article
